Director's Message

Sierra Unified School District Alternative Program consists of Sierra Alternative High School (grades 9-12), Sierra@Home (K-12) and Oak Meadow Community Day School (grades 4-8). These small, rural schools serve a vast 3,100 square mile foothill and mountain area, approximately 40 miles northeast of Fresno. Sierra Alternative High School serves students from the district who have fallen behind in credits, who want to accelerate their high school graduation date or who want to experience a small school environment. Sierra@Home is a K-12 alternative school of choice utilizing an independent study model to deliver curriculum. Students, parents and teachers work together to address the needs of the individual student in reaching their greatest academic potential. Additionally, Sierra@Home students can access the rich extracurricular opportunities in Sierra Unified. Both Sierra Alternative High School and Sierra@Home are accredited through the Western Association of Schools and Colleges (WASC). Lastly, Oak Meadow Community Day School provides a supportive option for students with behavioral problems who may need a small class size with a more restrictive environment. Collectively, these schools provide alternative educational options for all students in the Sierra Unified School District.

School Mission Statement

The mission of Sierra Alternative Education Center is to focus on the individual and to facilitate each learner's unique personal and academic development in acquiring effective skills for realizing their goals in the classroom and society.

Sierra Alternative Education Center students are ...

Social-Emotional learners who:

- Develop self-confidence and positive self-esteem through life experiences and research.
- Generate positive relationship building skills.
- Discover mental health and coping skills through counseling, self-evaluation, classroom activities and projects.

Responsible, self-directed learners who:

- Demonstrate self-motivation, self-discipline, and accept individual and group responsibility.
- Create a positive vision for themselves and their future in order to set priorities and achieve goals.
- Exhibit good study/work habits that include regular attendance, schoolwork, and effective time management.

Complex thinkers who:

- Demonstrate critical thinking skills and logical problem-solving processes.
- Identify, analyze, integrate and use a wide variety of resources and information to achieve goals.
- Use self-evaluation while implementing ideas or plans.

Technologically-skilled students who:

- Develop and utilize technological skills to produce, publish, and present projects and assignments.
- Exhibit skills necessary to gather, analyze, and organize information to fulfill projects.
- Locate and access online information from appropriate sources to complete assignments.

School Safety

Sierra Alternative High School provides a safe and effective learning environment for all students. We attribute our success to our comprehensive and well-articulated student-discipline policies that are agreed upon annually and enforced by all staff members. The school safety plan was last reviewed and updated in July 2023, with input from staff and community members.

The school safety plan contains key elements for disaster preparedness. This includes action plans for fire, lockdown, bomb threat and earthquake. The plan is posted in every classroom, making evacuation routes and action plans available to all students, parents, and regular and substitute teachers.

All students bring to the school setting a multitude of prior learning experiences that can positively or negatively affect their participation in the school process. Development of an insightful understanding of how personal characteristics can affect school success is part of maintaining safe schools. However, student productivity and satisfaction emerge primarily from school policy and procedures, not the traits students and staff bring to school. Sierra Alternative Education Center has developed a list of policies and procedures used to help maintain a safe learning environment for students and staff.

All school policies and procedures, including student behavioral expectations and specific consequences, are listed in the Sierra Education Center Student Code of Conduct, which is given to all students at the beginning of each school year.

School Accountability Report Card

In accordance with state and federal requirements, the School Accountability Report Card (SARC) is put forth annually by all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

District Mission Statement

Our mission is to inspire, engage, challenge, and support all students to reach their highest level of learning and personal development.

District Vision Statement

Our vision is to be an exemplary, student-focused school district that is highly regarded for the competence and character of our students; the rich connection to our mountain community; and the excellence of our people, programs, and learning environment.

Enrollment by Student Group - Sierra@Home School

The total enrollment at the school was 61 students for the 2022-23 school year. The pie chart displays the percentage of students enrolled in each group.

Average Class Size and Class Size Distribution

Sierra@Home School

Sierra@Home School is an independent study program for grades K-12. Each student meets independently with the classroom teacher on an assigned day, therefore class size data does not apply.

Sierra Alternative High School

Sierra Alternative High School is a continuation high school. A large percentage of the student population transfers between the comprehensive high school, Sierra High, and Sierra Alternative dependent upon disciplinary contracts, credit accrual and recommendations from academic counselors. For the 2022-23 school year, 39 students attended Sierra Alternative, although the total student enrollment did not exceed 30 students at any one time.

Oak Meadow Community Day School

For the 2022-23 school year, there were no students enrolled.

Professional Development

Each year, teachers and administration review student achievement and schoolwide discipline data. An ongoing professional-development plan is established based on needs identified through this data-review process. Other professional development topics studied in recent years include Curriculum Mapping and Benchmark assessments, Common Core State Standards Implementation, Educational Technology, Positive Discipline, Components of a Therapeutic Community, Google Suite and Aeries student information system training.

Response to Intervention (RTI) is a method of working with all students at the school to improve their proficiency level. The main focus has been in the four core areas: mathematics, English language arts, science and social science. English language arts is a major focus of the schoolwide intervention, and research has shown that a student's proficiency level in this area leads to success in others.

The school dedicates six full days and weekly late start Monday school meetings for staff development, focusing on the development of professional learning communities, standards-based instructional practices and engagement strategies, as well as safety and discipline topics.

California Physical Fitness Test - Sierra@Home School

Each spring, all students in grades 5, 7 and 9 are required to participate in the California Physical Fitness Test (PFT). The Fitnessgram is the designated PFT for students in California public schools put forth by the State Board of Education. Due to changes to the 2021-22 and 2022-23 PFT administration, only participation results are required for the five fitness areas.

Encouraging and assisting students in establishing lifelong habits of regular physical activity is the primary goal of the Fitnessgram. The table shows the percentage of students participating in each of the five fitness components for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf.

Types of Services Funded

The Sierra Alternative Education Center schools do not use categorical funds; they are not Title I schools.

Parental Involvement

The Sierra Alternative Education Center has several programs to fit the needs of our community. In our programs, parental involvement is always invited and may look different than one would expect to see at a regular school site. Our independent study school has the highest degree of parent involvement within their children's day-to-day education. At Sierra Alternative High School, parent conferences are held in the fall of each school year to encourage parental involvement in the educational process. Parents are also invited to participate in the intervention and behavior systems. All of the schools have an open-door policy that allows the parent to observe classes.

For more information on how to become involved at the school, please contact the Director of Alternative Education Anthony Abrams at (559) 855-3020.

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Suspensions and Expulsions

This table shows the school, district, and state suspension and expulsion rates collected between July through June, each full school year respectively. Note: Students are only counted one time, regardless of the number of suspensions. There have been no students enrolled in Oak Meadow CDS for the past three years, therefore no data is shown.

Statewide Assessments

Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade 10, 11 or 12).

The table below shows the percent of students meeting or exceeding the State standard on the CAASPP – California Science Test (CAST) and the California Alternate Assessment for Science (CAA for Science) for grades 5, 8, and once in high school (i.e., grade 10, 11 or 12).

CAASPP by Student Group: Science, English Language Arts and Mathematics

The tables on the following pages display the percentage of students that met or exceeded state standards in science, English language arts/literacy and mathematics for the school by student groups.

The “percentage met or exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAA divided by the total number of students who participated in both assessments.

Note: The number of students tested includes all students who participated in the test whether they received a score or not. However, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Graduation and Dropout Rates

This table displays the graduation and dropout rates for the most recent three-year period for which data is available. The four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of grade 9 (or the earliest high school grade), students who are entering that grade for the first time form a cohort that is "adjusted" by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out.

Textbooks and Instructional Materials

Textbooks are selected by content-area teachers who utilize California Department of Education listings and guides to determine materials that adequately cover the Common Core State Standards students are expected to master. Additionally, materials are reviewed to ensure they will provide intervention materials for English learners and special education students, are teacher and student friendly, and will work with the Sierra Unified instructional program.

A thorough review of the programs is conducted with input from staff, including teaching sample lessons from programs being reviewed. Community members are invited to conduct a review of content and then a recommendation is made to the Board of Education. The Sierra Unified District notifies school site councils and publishes the notification in the regular board agenda of the proposed material adoption and displays the materials publicly for review at the site and district office. Public may comment at the board meeting when adoption is scheduled for approval or leave comments with the school site or district office staff.

The Board of Trustees vote to approve materials at a regularly scheduled meeting.

Each fall, the board reviews textbook and instructional material sufficiency. A hearing is publicly announced and is held during a regularly scheduled board meeting. Public comment is invited via an announcement in the newspaper of the meeting and materials sufficiency hearing.

School Facility Good Repair Status

The table shows the results of the school’s most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. This inspection determines the school facility’s good repair status using ratings of good condition, fair condition or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair or poor.

School Facility Good Repair Status		2023-24 School Year
Items Inspected	Repair Status	
Systems: Gas leaks, sewer, mechanical systems (heating, ventilation and HVAC)	Good	
Interior: Interior surfaces (floors, ceilings, walls and window casings)	Poor	
Cleanliness: Pest/vermin control, overall cleanliness	Good	
Electrical: Electrical systems	Good	
Restrooms/fountains: Restrooms, sinks and drinking fountains	Good	
Safety: Fire safety, emergency systems, hazardous materials	Good	
Structural: Structural condition, roofs	Fair	
External: Windows/doors/gates/fences, playgrounds/school grounds	Good	
Overall summary of facility conditions	Fair	
Date of the most recent FIT report	9/26/2023	

School Facilities

Sierra Alternative Education Center was built in 1995 and is located in the foothills among beautiful oak trees and open fields. All three schools are located on the same grounds. The facilities accommodate sufficient space to allow students and teachers the enjoyment of a small classroom environment.

The school is maintained by district crews and inspected annually for needed repairs. A custodian is assigned to the school, and it is cleaned nightly.

The design of the school funnels all staff, students and community members by the administrative office and guests are required to sign in.

Recently, the grounds were updated to include a new shade structure, swing and horseshoe pit. These additions have provided students with more activities to do during break and lunch. Our students also access the facilities of the adjacent high school on a daily basis. PE class is held at Sierra High School in either their gymnasium, weight room or athletic fields.

Deficiencies and Repairs

The table lists the repairs required for all deficiencies found during the site inspection. Regardless of each item’s repair status, all deficiencies are listed. For all items inspected that were found to not be in “good repair,” a work-order has been created and maintenance will be done before the end of the 2023-24 school year. Work orders will be prioritized and assigned as time and/or funding permits.

Deficiencies and Repairs		2023-24 School Year
Items Inspected	Deficiencies and Action Taken or Planned	
Interior	8 deficiencies noted ranging from cabinet damage, walls or ceiling cosmetic damage and/or staining.	
Electrical	1 deficiency noted for lighting in classroom.	
Safety	1 deficiency noted due to peeling paint.	
Structural	3 deficiencies noted due to lack of rain gutters.	
External	2 deficiency noted from lifting sidewalk to damaged fencing.	

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

“The mission of Sierra Alternative Education Center is to focus on the individual and to facilitate each learner’s unique personal and academic development in acquiring effective skills for realizing their goals in the classroom and society.”

Teacher Preparation and Placement

The teacher data displayed in this SARC is from the 2020-21 and the 2021-22 school years. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included. These tables display the number and percent of teacher authorization/assignment as well as the total number and percent of teaching positions at the school, district and state levels. For questions concerning the assignment of teachers outside their subject area of competence or the credential status of teachers, visit the California Commission on Teacher Credentialing website at <https://www.ctc.ca.gov/>.

Note: The data in these tables is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The data source is the California State Assignment Accountability System (CalSAAS) provided by the Commission on Teacher Credentialing. For information on the CalSAAS, visit the CALPADS web page at <https://www.cde.ca.gov/ds/sp/cl/calpadsupflash201.asp>.

Financial Data

The financial data displayed in this SARC is from the 2021-22 fiscal year. The most current fiscal information available provided by the state is always two years behind the current school year and one year behind most other data included in this report. For detailed information on school expenditures for all districts in California, see the California Department of Education (CDE) Current Expense of Education & Per-pupil Spending web page at www.cde.ca.gov/ds/fd/ec. For information on teacher salaries for all districts in California, see the CDE Certified Salaries & Benefits web page at www.cde.ca.gov/ds/fd/cs. To look up expenditures and salaries for a specific school district, see the Ed-Data website at www.ed-data.org.

Supplemental/restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

School Accountability Report Card

Data for this year's SARC was provided by the California Department of Education and school and district offices. For additional information on California schools and districts and comparisons of the school to the district, the county and the state, please visit DataQuest at <http://dq.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English learners. Per Education Code Section 35256, each school district shall make hard copies of its annually updated report card available, upon request, on or before February 1. All data accurate as of January 2024.
