3. Superintendent Report - Alan Harris, Ph.D.
Dr. Harris shared new fundraising procedures with the Board which can be viewed in the link below. He went on to speak about how being on the campuses in October, you can appreciate the work that is done even more so, every day in the classroom. The only thing that ever does, and ever will matter in a student's life and achievement in Teacher relationship. In the month of October, as they get in to the swing of things and things intensify, and there is accountability with report cards, it can be pretty intense. He expressed appreciation for all of the staff, from our bus drivers, to our maintenance crew, to our food service staff, and to our teachers, who are truly dedicated to every single child. Also, the amount of staff and community involved in communicating the updates regarding the power outage, can’t be thanked enough for how interested people are in taking care of each other and the kids. Thank you particularly to Craig and his team and how they responded with the schools ready to go the moment they opened, and the food service staff at SJSHS losing a minimal amount of food.

4. Department Reports
   a. Facilities, Maintenance and Transportation – Craig Barnes, Supervisor
      Mr. Barnes reported that they learned a few things from the planned power outage and going forward there will be proposals for back-up generators and power. Last week the Fresno County Fire Inspector visited the sites. With a new procedure and a dedicated department for fire safety inspections, we are now working through a list of fire safety issues. The transformer replacement process is proceeding on schedule.

      2. Annual Disclosure of Developer Fees
   c. Education Services – Teresa Page, Director
      Ms. Page spoke about striving this year to continually improve the systems that allow us to proactively and effectively address the needs of our students. One major feature has been putting in place extra Aide hours to assist in classrooms and with individual students. Barbie Neu and Barbette Dunn did an analysis for us in order to convey the difference in Aide support from last year to this year. They compared May 2019 to September 2019 (both months of 20 school days). What they found is that this school year there were about 470 more hours worked by Instructional Aides than we had last May. For context, that took us from a little over 2,900 Aide hours in the month of May to approximately 3,400 Aide hours in the month of September. We began the year with the intention that the increased Aide support would be in place just to start the year, but by the 4th week of school, it was apparent that our student need for support was continuing to grow, and that by dropping these Aide hours would both jeopardize the students’ progress, and put us back in a cycle of crisis-react, crisis-react. She thanked the Board for their support.
   d. Curriculum and Instruction – Tammy Montgomery, Director
      Mrs. Montgomery reviewed ELA and Math test scores with the Board. This included a three year comparison of SBAC, as well as 2018-2019 DLA and CAASPP. See above link for details.

He did not participate in the discussion but was able to socialize with some of the parents afterward and hear some of their concerns. It was good for them to see a Board member there.
