Site LVN Assessment: Verbal:
Any exposure to someone ill?
What are your signs and symptoms? When did they start?

Site LVN Assessment - Visual:
Flushed cheeks, difficulty breathing, fatigue, extreme fussiness/agitation, coughing.

Site LVN Assessment - Physical:
Temperature: > 100° F
Pulse Oximetry: < 98%

Visual, Verbal and/or Physical Concerns are Identified by Site LVN

District Nurse to follow up with family regarding return to school following CDC guidelines.

Symptomatic students will be sent home to isolate according to the FCDH guidance. The remaining students in the classroom will continue with their school day. If the symptomatic student becomes a confirmed positive COVID case, close contacts will be identified and sent home to quarantine according to FCDH guidance.
